## High-Performance Fibers 2009

Is THE international conference for executives from leading manufacturers of high-performance fibers, such as p-aramids (Kevlar® and Twaron®), and high-performance polyethylenes (HPPE, Spectra® and Dyneema®), , and S2® glass ,end users, such as OEMs, DoD and other research labs, and composites parts manufacturers. Join your industry colleagues – technical directors, marketing executives, business development specialists and other industry experts - in lively discussion on the diverse business opportunities and technical challenges that lie ahead in high-growth applications such as body and vehicular armor, high-performance rope and cordage and sporting goods, as well as in the blast-resistance, fire resistance, marine, aviation and aerospace markets. Numerous networking opportunities will be available at a catered reception, roundtable luncheon, and refreshment breaks.

- A can't miss pre-conference seminar the morning of Nov. 17 will focus on the latest market developments and technology.
